

Square (Core)

Manual and Fixed

[Manual and Fixed Bollards List](#)

Automatic

High Security and Anti-Terrorist

Optional Extras

[Square \(Mid\)](#)

[Square \(Premier\)](#)

The ATG Square is our biggest selling manual bollard, the galvanised version, from our core range, provides great protection.

The robust finish and sturdy looks are a great deterrent against ram-raid and lend this bollard to industrial applications such as warehouse roller shutter door protection.

Wall thickness: 0.25"

Optional Extras

- Lift Assist
- Sold Secure Lock
- Security Caps
- Drainage Pumps

Basic Installation Information

Diameter of hole: 16" Square
 Depth of hole: 41"

Insurance companies recommend 4.25 feet spacings between bollard centres, ATG Access works to this recommendation unless otherwise stated.
