Removable Hoop (Core)

Manual and Fixed

[Manual and Fixed Bollards List](#)

Automatic

High Security and Anti-Terrorist

Optional Extras

ATG Access removable hoop barriers are a security device utilised in car dealerships throughout the UK, to secure perimeters and to provide simple yet effective protection.

Available in a range of RAL or BS colours to match your corporate colour schemes, hoop barriers can be fitted with advertising panels or advisory signage. They also complement our wide range of static hoop barriers.

Wall thickness: 0.20"

Optional Extras

Lugs for signage

Basic Installation Information

Diameter of holes: 12" Square

Depth of hole: 20"

Insurance companies recommend 4.25 feet spacings between hoop barrier centres, ATG Access works to this recommendation unless otherwise stated.
